

Mint of the United States at Philadelphia,

Nov 22, 1886.

Sir:

I have the honor to report that the capacity of the Post-Office Vaults for storage of silver, within compartments, is now exhausted, there being therein stored Twenty One Millions Seven Hundred and Fifty Thousand (\$21,750,000) Dollars.

As this is, by weight, about equivalent to Six Hundred and Fifty (650) net tons, it becomes a question whether, or not, it would be judicious to store any more silver in those vaults.

In compliance with your request I have applied to Mr. McArthur, who superintended the construction of the new Post-Office, for information relative to the limit of elasticity of the sustaining girders of the vaults, and have the honor to hand you herewith Mr. McArthur's reply. Respectfully,

Wm. D. Fox,
Superintendent

Wm. D. Fox
